

Date:

Wednesday Challenge Form

Group Members: Mason, Raul, Evan, Jaden,
Jonathan

Problem Statement:

Create another handout that is a fidget toy. The same rules apply as the previous few weeks.

Approach:

We looked online and stole the design of a product called the Boink. Its pretty much just a marble in a mesh bag.

Solution:

Jason's team won. They created a stress ball which consisted of a balloon filled with rice. There are also propellers on the back made out of foam to symbolize a zeppelin.

Lessons Learned: A big aspect of creating something is how much it will cost to produce.
